

THEIR LABOR  
FOR NOTHING.Masked Men Hold Up  
a Train.The Booty Secured Was  
Only \$2.85.The Outlaws Failed to Ascertain  
That There Was No Treasure  
on the Train.

KANSAS CITY, November 12.—The St. Louis Limited night express on the Missouri Pacific road, which left Kansas City at 10:45 tonight, was held up three miles east of Independence, Mo., by five masked men, who flagged the train with red lanterns. It is said the robbers secured nothing. The train proceeded on its way.

The scene of the holdup is within a mile of the famous Blue Out, in which so many robberies on the Chicago and Alton road have occurred.

Two of the robbers were disguised as women, and when the engineer saw them waving a lantern across the tracks, an apparent signal of danger, he did not hesitate to stop. The engine's crew was immediately covered with revolvers. Conductor Dennis O'Brien and brakeman Michael stepped off to see what was the matter, and were greeted by a volley of bullets which caused the greatest confusion in the passenger coaches. The conductor and brakeman were compelled to cut the express and baggage cars from the rest of the train and the engineer and firemen were made to get down from their cab.

The robbers quickly jumped aboard and took the engine and express car about two miles further east, where they stopped and compelled Express Messenger Williams to open his car.

He offered no resistance, as he carried no treasure. The robbers had evidently intended to stop the St. Louis Limited night express, which leaves Kansas City at a late hour, and were greatly surprised upon discovering that the car which they had captured contained nothing of value.

In their rage they pounced upon the express messenger and went through his pockets, but \$2.85 was all they secured. After this they quickly left the train and disappeared in the darkness. After a delay of over an hour the train was got together again and was started on its journey. The county marshal and his men were on the scene of the robbery very soon afterward, but there is every probability that the robbers were safely in Independence or Kansas City before any effort was made to capture them.

## A Gigantic Tube Trust.

TOLSON, November 12.—A combination of steel tubing manufacturers representing 90 per cent of the tubing output of the United States has been formed. The combination is called the Shelby Tube Company and is capitalized at \$5,000,000. W. H. Miller of Shelby will be the president and general manager. The minimum output of the combined mills is 30,000,000 feet. An arrangement is to be in force, however, by which tubing for different purposes will be made at different mills, one taking the bicycle tubing, one the government work, one the fine work, etc. It is expected that the amalgamation will also undertake to produce steel billets by the open hearth process.

## National Baseball Notes.

PHILADELPHIA, November 12.—The magnates of the National Baseball League at their meeting today voted unanimously to abolish the Temple cup series of post season games. The resolution prohibits the playing of exhibition games at any time between national league clubs. The regulations are initiated by the minor leagues to the rules relating to the drafting of players were adopted. The amended rule provides that no player in the eastern, western or Atlantic leagues shall be drafted by the major league until he shall have been two years with the minor league club.

## An Investigation Demanded.

STOCKTON, November 12.—Dr. E. S. O'Brien, superintendent of the Protestant Reformatory school, who was in this city today, denied the charges against him, and says he wants a searching investigation. "Captain Hawk, one of the men who make the allegations concerning cruelty at the school, is a man whom I discharged for incompetency," Dr. O'Brien said. Dr. Tyrrel, one of the trustees, wanted Brien retained, and is making his fight because he could not save him.

## No Interference in Hayti.

WASHINGTON, November 12.—It is not possible to confirm the statement coming from Berlin to the effect that the United States has offered to mediate between Germany and Hayti in the differences arising from the arrest of the German subject, Landgraf. It is gathered, however, that while no such proffer has been made, overtures have been made to this government to intervene, but without success.

## Reciprocity With Mexico.

WASHINGTON, November 12.—President McKinley has issued a proclamation exempting Mexican vessels from the duty on the payment of cargo dues in United States ports.

## DIED LIKE HEROES.

Preferred Death to Deserting Their  
Wounded Comrades.

SCHELA, November 12.—The victory of India, the Earl of Elgin, has ordered a court of inquiry to investigate the desertion of the British force under General Wontnacoit, which on Wednesday last reached the summit of Suran-Sar mountain with little resistance and afterwards retreated, closely pursued by the enemy, with the loss of about fifty killed and wounded, the British rear guard only being saved by the excellent disposal made of the troops by the commanding officer.

Diapatches received from the British camp in the Malayan Valley say that a man who has just come in there brought some details of the killing of Lieutenant McIntyre and the twelve men belonging to the Northamptonshire regiment who met death while endeavoring to save the wounded of the regiment during the retreat from the Suran-Sar mountains.

This survivor says that when the lieutenant found himself isolated he dispatched him for aid, as the small party was hampered by the wounded and would not desert them.

The rest of the sad tale will never be known. But, as shown by the dispatch of yesterday, Lieutenant McIntyre and his handful of men sacrificed their lives for their wounded comrades, the positions in which the bodies were found showing they died bravely fighting to the last. The enemy was afraid to rush upon the little band, the dispatches also say, but shot at them from points of vantage until every man of the British detachment was killed.

A full representation of the Orakzai tribes met General Sir William Lockhart, the British commander, today, at the Malayan Valley camp and heard the terms which he insisted upon for their submission, namely: The restoration of all the rifles captured since the outbreak, their disarmament by another 300 rifles, the payment of a fine of 30,000 rupees, and the formal submission of the tribes in full to General Lockhart within a fortnight.

A portion of the Orakzai envoys seemed to demur at these terms.

## Good Templars Adjourn.

PASADENA, November 12.—The annual convention of the Independent Order of Good Templars closed today. A new constitution was presented and voted upon, but was defeated. The new officers had been installed, and it was decided to hold the next convention in San Francisco on the second Tuesday in October, 1898.

## THE LAW'S DELAY

Durrant May Not Swing  
Before March.Removed From the Condemned  
Cell to His Old Quarters in  
Murderers' Row.

SAN FRANCISCO, November 12.—In view of the fact that the supreme court, which is now in session at Sacramento, will adjourn tomorrow until the second Monday in January, it is not considered probable that W. H. T. Durrant, the condemned murderer of Blanche Lamont and Minnie Williams, will expire the crime for which he was sentenced to be hanged in December, 1895, during the current year.

In the ordinary course of events the matter cannot come up for hearing upon the points involved in the order granting the certificate of probable cause, to which the murderer owes his second lease of life, until the middle of January, even though the forwarding of the remittitur from the supreme court of the United States be expedited.

After the case has been decided another thirty days at least must intervene before the remittitur from the state supreme court can reach the trial court, and the condemned man be released for the second time. This course would not allow the execution to take place before the latter part of February or beginning of March next.

It is possible that the attorney-general may apply to the supreme court to advance the case and hear it as a special order, but this action is so unusual that few attorneys entertain the suggestion as likely to be accomplished.

Meanwhile Durrant has been removed from the condemned cell and returned to his old cell, No. 21 in Murderers' Row at San Quentin, where he will remain until the supreme court passes upon the question raised by his attorneys.

## The Floods in Valencia.

MADRID, November 12.—Further details regarding the floods in various parts of Spain, notably in the provinces of Saragossa, Valencia and Malaga, show that fifteen corpses have already been recovered. In the neighborhood of Valencia enormous numbers of cattle have perished and the villages of Alcazar and Nazareth have been completely inundated. Many of the houses of these places have collapsed.

## Arms for the Carlists.

BARCELONA, November 12.—The police have seized 300 rifles intended for the Carlists. These were found on board the ship St. Philippe, which took shelter here under a false name. The vessel came from Antwerp and it was intended to unload her on the coast of Valencia.

## Discriminating Crackers.

MONTROSE, November 12.—A still life was the saloon safe of Davy and Pollison opened early this morning that no damage resulted to the \$10,000 worth of jewelry was taken. No valuable jewelry was ignored, the thief was waiting only coin.

No Money for Primaries.

VIENNA, November 12.—Suit has been commenced here to restrain the supervisors from appropriating any money to defray the expense of a primary election in accordance with the act passed by the last legislature. It is alleged that the act is unconstitutional.

PROSPECTS OF  
STEADY TRADE.Iron Works Flooded  
With Orders.Woolen Mills Have All They  
Can Do.The World's Shortage in Wheat  
Will Absorb All This Coun-  
try Has To Spare.

NEW YORK, November 12.—R. G. Don & Co.'s weekly review of trade will say tomorrow: Colder and more stormy weather, so long needed to accelerate distribution of winter goods, has materially helped in some quarters and the resulting improvement in retail trade is mentioned in nearly every northern dispatch this week, so that orders to fill stocks have been encouraging, and in some branches the multitude of demands for immediate delivery show that the distribution to consumers has already gone much beyond the expectations of dealers.

But this is not yet the general rule, and with many complaints of delayed trade from other quarters there still remains the extensive shrinkage caused by fever and quarantines at the South. It is, therefore, the more surprising that the volume of all payments through clearing houses continues about as large as in 1892 and 1893, and larger than last year.

Railroad earnings also nearly equal those of 1892 for the first week of November, and half the mileage in the United States shows earnings in October of \$50,354,400, or 8 per cent larger than last year, and 2.2 per cent larger than 1892.

Speculative markets feel disappointed because prices do not rise farther and faster, but it is fortunate for producers and dealers that the experience of some past years in that respect has not been repeated. There is nothing to cause general reaction, the purchasing power of the people is gradually increasing and after the fall which follows extensive replenishment in stock trade should give ample evidence of that increase.

The output of iron furnaces November 1st was 212,150 tons weekly against 200,120 October 1st, a gain of 0.1 per cent, and annual output decreased 48,390 tons in October, indicating a larger consumption in manufactures than ever before, even when the output of pig was pushed by avertly advancing prices to the highest point, 27,639 tons, November 1, 1895.

Prices of iron products rose that year 55.3 per cent but are now 4 per cent higher than June 9th. The enormous output, with some more furnaces started in November, cannot but a slight decline in Bessemer pig to \$10.25 at Pittsburgh with no decline in the other pig grades, at the cost of Chicago and in no fall in prices of finished products except a shadown angles.

While most works have orders for the rest of the year, and in sheets and some other branches are far behind in deliveries, new orders are few but include one for 2000 cars at Chicago and one for 400 at Pittsburgh; one for an armor-plating contract for small bulletins and for St. Vincent's hospital and three school houses here, many for bridges, with some for the drainage canal at Chicago.

Woolen mills generally have orders for three months ahead and are not seeking further engagements. Large sales of speculative lots of wool at prices not stated except that it may be higher and for St. Vincent's hospital and three school houses here, many for bridges, with some for the drainage canal at Chicago.

The decline in cotton and the slow demand for goods, owing to the warm weather, have led cotton mills to confer about curtailment of production, and further reductions have been made in brown shadings and drills, prints, and by jobbers in bleached goods. Cotton declined an eighth to 5.37 cents for middling uplands, and both exports and takings of spinners have been large.

Wheat dropped over 2 cents, but has since risen on heavy buying for export. Western receipts continue heavy in two weeks 14,025,907 bushels against 10,531,192 last year, while Atlantic exports, flour included, have been 6,562,023 bushels against 3,921,231 last year. An English authority reckons the world's yield at 161,000,000 bushels less than last year, which would mean a market for all this country has to spare.

Corn exports are again larger than last year and the price has risen 15c. Later prices of meat do not indicate that farmers have as yet much inducement to save corn for feeding.

## A Lodge of Elks Disciplined.

HARRISBURG, Pa., November 12.—Grand Exalted Ruler Meade D. Dettwiler this evening suspended the Marion (Ind.) lodge of Elks and forwarded the papers to District Deputy Armstrong of that state, authorizing him to secure the charter, paraphernalia and lodge effects. This action was due to the alleged violation of the laws of the lodge in the method of installing Tolbert Fitzsimmons. Mr. Dettwiler states that after a careful examination of the case it clearly appears that the Marion lodge not only willfully and flagrantly violated the long established laws applicable to the admission of candidates into the order, but also the positive instructions of the district deputy notifying the officers of the lodge that the proposed initiation was contrary to law.

## Sua Officers Becoming Extinct.

WASHINGTON, November 12.—Captain O. L. Hooper of the revenue service, commanding the Bohring sea patrol fleet, has made a report to the secretary of the treasury on the status of the whaling industry of Alaska. Captain Hooper reviews the history of the whaling industry at the conclusion that they not only have been greatly reduced in numbers during the last ten years, but that they have actually changed their habits and no longer are found as formerly on or near the shore. He also states that the 1165 natives on the Aleutian Islands are almost wholly dependent upon the whaling for the necessities of life and will be left destitute if the industry is exterminated, as seems imminent if no steps are taken for its preservation.

## Oakland's Water Front.

OAKLAND, November 12.—The Oakland Water Front Company is satisfied with the supreme court decision in the Oakland water front case and will accept the thousand or so acres which the decision gives it, and will not appeal for the reason that its attorneys are of the opinion that no appeal can be made to the United States supreme court because no federal question is involved in the case. What action, if any, the opponents of the Water Front Company will take in the matter has not yet been determined.

## Cuba Wants Independence.

LOUISVILLE, November 12.—A special to the Daily Times from Havana summarizes statements by General Maximo Gomez and other Cuban generals, opposing the acceptance of anything short of independence and declaring that autonomy would not be worth the paper it was written on.

## Buried Treasures.

SAN JOSE, November 12.—The charge that the executors of the Elsenor Frost estate found \$6300 buried in the ground, which they failed to account for in the inventory, received partial proof today in the probate court when Mrs. J. E. Haines, a daughter of Frost, swore that she had received \$1500 which was so found.

## The Randall Bank Failure.

CHICAGO, Ill., November 12.—The grand jury is conducting a searching investigation into the failure of the Randall bank. Co-Defendant John S. Murray was subjected to a rigid examination regarding the transactions and methods of the bank.

## SIEDMAN WON.

Best Was Bested in One  
Round.Exciting Glove Contest at the  
Athletic Club Last  
Night.

The boxing contests at the Athletic club last evening were a complete success. The club rooms were tested to their utmost capacity to accommodate the sports in attendance. The matches were all spirited and received merited applause from the audience.

The program opened with an overture by Prof. Reitz's orchestra. Then came the preliminary bouts between Francis and Cardwell, and that of Foster against Kirkpatrick. They were full of vim and showed the contestants up in good form.

Between Carl Harrell and Perry Brown were the participants in the first "real" event of the evening. Harrell's weight was 103 pounds, and his seconds were J. S. Broad and B. W. Cardwell. Brown tipped the scales at 109 pounds, and was attended by Charles Francis and H. L. Pechman.

In the first round the honors were about even, Brown doing most of the looking and landing after, while Harrell did some very clever jockeying and evading. Round second was "warmer." It was a case of give and take, both men enduring some hard smashes.

In the third round "little" Harrell got a terrific pace and had Brown "groovy" in short order, but the latter was gritty and sent in some good ones that made the double Harrell wince. Harrell had the best of the round and before the bell had no hesitancy in awarding the decision in Harrell's favor. Judges William Tyler and E. L. Hamilton concurred.

The main event of the evening, the Siedman-Best bout, was of short duration. The San Francisco local colored man superiority over the local colored man in just two minutes and fifteen seconds. In just two minutes and fifteen seconds the crowd began to cheer and the orchestra began to play. "There! he's got him!" was the cry. "There! he's got him!" was the cry. "There! he's got him!" was the cry.

Just as first to enter the ring and the crowd got up a merry shout as the orchestra began to play. "There! he's got him!" was the cry. "There! he's got him!" was the cry. "There! he's got him!" was the cry.

Siedman was soon in the ring and they were quickly at it. Best, contrary to expectations, went in with a man with a will, but only for a short time, for the husky San Franciscan soon settled him with a stiff punch over the heart, quickly followed by another on the jaw.

Everything was carried out successfully, and the program, which was under the supervision of Mel Duncan, gave general satisfaction.

## Southern Pacific Finances.

SAN FRANCISCO, November 12.—The Southern Pacific Company today filed with the railroad commissioners its annual report of the Southern Pacific and of the Central Pacific railroad for the year ending June 30, 1897. It appears by the report for the Southern Pacific, which as before includes the Central Pacific, that the gross earnings of the operating departments were \$1,000,000 less for passengers and baggage and 600 less for freight and express, in the year ending June 30, 1897, than in the preceding year the gross earnings were \$35,347,431.63, while this last year they were only \$35,314,345.76.

## Cooney's Trial Set.

SAN FRANCISCO, November 12.—The case of ex-Notary Public J. J. Cooney, charged with forging the acknowledgment to the re-called Far-Graven deeds, has been set for trial on the 13th of next month.

SOVEREIGN  
IS DEPOSEDKnights of Labor  
Elect Officers.Cause of Sovereign's Retirement  
a Secret.It Is Hinted That the Step Had  
Been Arranged Before the  
Delegates Assembled.

LOUISVILLE, Ky., November 12.—James K. Sovereign, who has been grand master workman of the Knights of Labor for the past four years or more, was this afternoon relieved of his office by the general assembly, which has been in session in this city since Monday last.

Under ordinary conditions Mr. Sovereign's term of office would not expire until the next meeting. This, however, it is said, makes no difference with the order, whose general officers during a meeting are always in the hands of the assembly, and can be chosen and deposed at the will of the majority.

Along with Mr. Sovereign there were three other officers retired because of a special meeting, viz: T. B. McGuire, grand worthy foreman of Amsterdam, N. Y.; Daniel Brown of Montana, and H. B. Martin of Minneapolis of the executive committee.

Henry A. Hicks of district 253, New York city, was chosen to fill Sovereign's place, and L. D. Chamberlain of Pueblo, Colo., was selected as general worthy foreman. Sanfield Fitzpatrick of Montreal, and Henry Backus of assembly 300, place workers, were chosen as the two members of the executive board, the third member being Andrew Best.

This decisive change in the corps of officers of the K. of L. will cause considerable astonishment in labor circles throughout the country. Save to those who were "on the inside," no one is to speak for the past three months, there was absolutely nothing of this known. It is said, though, that although the change was sudden and totally unlooked for, it was done with the amicable consent of all.

At headquarters it is hinted that it had been pre-arranged before the delegates gathered in this city for the general assembly. On good authority it is learned that it was with Sovereign's most hearty approval that he steps down and out. It is likewise with the appreciation and in fact, love of his brethren of the order that this is done. The same holds good with the other officers, who were relieved. Mr. Sovereign stated tonight that he wished retirement. He wanted rest from the labor which the office entailed upon him.

Henry A. Hicks, the master workman elect, was seen after the meeting. He said that he did not intend to outline the future policy of the order under his administration for several days yet. He expressed the highest admiration for his predecessor, saying that he thought him one of the greatest exponents of the K. of L.

L. D. Chamberlain, the worthy foreman elect, is a newspaper man. He said that he did not intend to outline the future policy of the order under his administration for several days yet. He expressed the highest admiration for his predecessor, saying that he thought him one of the greatest exponents of the K. of L.

All the business transacted at today's meeting went through in the most amicable manner possible. There was not the slightest hitch. In the morning session the remnant of the routine business which had been left over was disposed of. The afternoon session was principally taken up with the delivery of Mr. Sovereign's annual address, which was listened to by the delegates with the greatest attention and greeted with applause.

After the annual address the change in officers took place. The old officers were relieved and the new ones elected and installed.

Mr. Sovereign's name was the first one mentioned in nomination, but he immediately arose and said he would not accept. No one opposed Mr. Hicks. The other officers were also chosen with as much ease. The assembly was then declared formally organized.

The regular order of business will be taken up tomorrow.

## This Was a Lively Kid.

DAYTON, Ohio, November 12.—As a wind-up to the festive carnival given here in the opera house tonight, Kid McCoy took on George La Blanche (the Marine) and Beach Rabbie of Hamilton. La Blanche lasted only 20 seconds. Rabbie was knocked down five times in two minutes and the police interfered. McCoy had offered \$50 to the man that stood before him four rounds.

Daily Republican, one year, by mail, \$5.00.

Daily Republican, six months, by mail, \$3.00.

Daily Republican, three months, by mail, \$1.50.

Daily Republican, per month, by mail, 50c.

Weekly Republican, one year, by mail, \$2.50.

Weekly Republican, six months, by mail, \$1.50.

If you read the REPUBLICAN you get the news.

The first carload of wheat has been shipped from Kern county over the Valley road, and there is plenty more waiting the arrival of the freight reducer.

Two carloads of apples were shipped from Watsonville to Fresno last week.

Next thing we know somebody will be shipping raisins to Fresno, prunes to Visalia and warm people to Bakersfield.

The value of southern California's orange crop is estimated at \$6,000,000—a golden harvest in more than one sense.

And central California will come in for a goodly share in the harvest of oranges and dollars.

A contemporary avers that the Hundred Thousand Club "would help chickens."

That would be a laudable undertaking if the chickens really need help; at any rate it is more commendable than lifting chickens.

At the suggestion of the Fresno Farmers' Club a meeting of the clubs of the state will be held at Sacramento at the time of the meeting of the State Fruit Growers' convention. A conference of the clubs should prove decidedly beneficial.

A SWANSON farmer, seventy-nine years old, has gone to Oregon to marry a San Francisco grass-widow whose divorce is too recent to permit the marriage in this state.

It seems entirely superfluous to wish the old gentleman joy of his romance. That will naturally follow.

HUSBANDS of tons of raisins in this valley which are still on the trays in a half cured condition will only be fit for the use of the bradys makers, and will amount to a very material decrease in the main output. The demand for raisins is still inactive, but if there does not yet prove to be a shortage in the market before the close of the season the Republicans will miss its prediction.

A DASTARDLY PRACTICE.

The Wild West and the Savage South deserve all the measure they receive for their shooting scrapes and lynchings, but it will be well hereafter not to waste all the condemnatory adjectives in the English language upon these much abused regions.

Some choice specimens of this part of speech should be reserved for bestial upon Ohio, Indiana and other states of the middle west where the White Caps flourish.

Shooting scrapes and this way are generally between men whose death is a benefit to society; lynchings being in the South serve to put out of the way wretches who have been guilty of the most loathsome crimes, but "white-capping" is a dastardly proceeding of villains who band together to work out private grudges and who are too cowardly to go about their nefarious work at any other time than in the night. They attack old men, women and children, but flee when confronted by a man with courage and a shotgun of sound constitution.

These remarks are prompted by the shameful maltreatment at Holgate, O., Thursday evening of two girls who had refused to leave town when ordered to do so by the White Caps of that locality.

For their refusal they were dragged out of their beds in their night robes, and after being whipped with a cat-o'-nine-tails were tarred and feathered. One of the victims was so severely handled that she may die. It is not stated what offense these girls committed that they should have been ordered to leave town; in fact, one does not have to offend against the law to bring down upon oneself the wrath of the White Caps. It is enough for a person to have incurred the enmity of one of their number; they want no better excuse for perpetrating their dastardly outrages. Blotting lynchings and shooting scrapes, to be sure, but lose no time in putting the "kibosh" on white-capping. There is a sort of rade justice in lynchings; shooting scrapes are an aid to the law that concerns itself with the survival of the fittest, but white-capping is a practice devoid of any redeeming feature. It has no moral purpose, is cruel and cowardly and the men who engage in it are unapologetically infamous.

Governor PIERCE has undoubtedly done some very commendable work in his official capacity and deserves praise for what he has accomplished, but he does not appear to have the knowledge of the Republican party that we have the right to expect from such a shining light of it as himself. In a speech before the Nineteenth Century Club at New York Thursday night he said: "I say right here that unless the Republican party comes out as champion of the average American and his welfare, and unless it ceases to cater to syndicates and monopolies, it will be carried into oblivion." This was probably one of those wild statements that so many men permit themselves to utter when speaking in public. They wish to emphasize a certain point, to utter a warning in a manner which shall be heeded, and resort to exaggeration. They do not mean to be unfair; they merely wish to be forcible. Of course the implication contained in the sentence quoted, that the Republican party does not consider the welfare of the people and is unduly given

to the encouragement of trusts and syndicates, is unwarranted by the facts. No party has the welfare of the people at heart more than the Republican party, and none has given more striking proofs of its solicitude for the average American. Nor does there exist a party that has endeavored more conscientiously to curb the power of trusts than the party of Lincoln. We should like to see Governor PIERCE attempt to prove his statements; it would be the best punishment for him, for no man feels so small as when he is called upon to prove an allegation that he knows cannot be proved.

The average easterner is a little hazy in his mind as to whether Los Angeles is in California or California in Los Angeles, but he always knows something about Los Angeles, and has heard of San Diego, San Francisco, San Jose, and Fresno, though they do not often know where Fresno is on the map.—J. P. in *Phoenix Register*.

Fresno has been "heard of" because her incomparable raisins and dried fruits are on sale in every market, and if the county had one-tenth part of the advertising that Los Angeles has there would be no uncertainty in the eastern mind as to our place on the map. It is a mistake to believe that the advertising of resources and climate does not pay. Southern California has grown rich on advertising.

The "Chinese wall," due to the Dingling law, doesn't seem to be seriously interfering with our export trade. In fact, that trade is larger with the wall than it was without it.—*Alameda Enquirer*.

A fallacy was never more completely exploded than the preposterous contention of the free traders that American exports fall under the influence and effect of a protective tariff. That whatever we produce that is needed by foreign countries will find a ready sale regardless of high or low tariffs has been so often demonstrated by practical experience that the theorists have not a foot of solid ground to stand upon.

The prediction that the forthcoming session of congress will be the shortest regular session on record is encouraging. There is no earthly reason why a session of congress should drag through a period of nine or ten months, and it will never do so if business-like methods are permitted to take the place of political filibustering and partisan noise and nonsense. More business, shorter sessions and less politics is what the people want at the hands of its legislators.

YVESVILLE is in eruption and so is the administration's "good times" boomed by the employees of the Associated Press.—*Expositor*.At last the *Expositor* admits the truth. Prosperity is overwhelming the United States with volcanic force. It is "erupting" everywhere, and no one has to scramble for his share. The employees of the Associated Press are right to boom the good times. They are setting an excellent example to the rest of the country.

The leading breeders of fine poultry throughout the state are taking an interest in the forthcoming poultry show in this city, and an exhibit is promised that will be pleasing and instructive to all who are interested in this profitable and rapidly developing industry. There are many successful growers of fine fowls in Fresno county, and they should see to it that the outsiders do not carry off all the honors.

Her future greatness is generally expressed in this "The Echo" will surely be larger than Fresno.—*The Echo*.Larger than Fresno is now, certainly. But can *Echo* answer when?

RANDOM REMARKS.

Abraham Lincoln, President of the United States; Robert Lincoln, president of the Pullman Palace Car Company—what a contrast!

The estate of the late Charles A. Dana is valued at over \$1,000,000. It is to be hoped, however, that this information will not cause many of the young men who are starting out in life to take up newspaper work. The man who engages in such work must be prepared for disappointments. Many newspaper editors have died whose fortunes did not reach even the \$500,000 mark.

If old John Rottger ruefully rubs that sore hip of his and wonders why the man who tried to murder him only got six months in state's prison he should not be thought hard of. Maybe if Mr. Rottger lives long enough his old fashioned ideas will disappear. The theory that "the punishment should fit the crime," has about fallen into innocuous disuse.

When the people of America declared that the constitution should be the supreme law of the land, they accomplished it that respect and reverence for established law that forever enthroned and sanctified it in their hearts.

Two great dangers confront the American people—first, the lack of an understanding of the essential principles of our American liberty and of the institutions that must be preserved that this liberty may be perpetuated; second, the lack of reverence for our established American institutions.

The foregoing excerpts are from a report of the lecture delivered by Superintendent of City Schools Dailey before the Perior Lecture Club last Thursday.

If the Professor was correctly quoted, it would seem that he contradicted himself; for in the first excerpt he declares that we reverence our constitution; in the second, that we lack reverence for our established American institutions, which, it strikes me, are as closely allied to the constitution as the Son is to the Father.

REFLECTIONS OF A BENEVOLENT.

To have to walk the floor with a sick baby is distressing; but to have your wife move away from you after you return to bed, because your feet are cold, makes a man stiff at the idea that there is any such thing as gratitude.

When your wife offends you don't come home at meal time. This invariably brings her to a realization of her helplessness.

When the apple of your eye says, "you dear boy, you really need a new suit," be prepared to hear her tell you the very next moment that she really thinks she ought to have a new hat.

If you find among your wife's photo-

graphs one of an old-time lover, get in a rage and tear it up; but if it is a picture of a girl before you were married, and she suggests that you burn them, say, with fine scorn, "How silly you are; those girls are nothing to me any more. I just keep the letters for fun."

When your better half asks you to address and stamp a letter to her mother, look bored and ask her why she doesn't do it herself, or why she writes so many letters. When you ask her to fetch you a book from the book-case, and she tells you her lap is full of sewing, and suggests that you get it yourself, "Get on your ear!" and refuse to give her a civil answer the rest of the evening.

"Not go with 'that drunken Jones' any more!" Look surprised, pained and indignant as you say this; then add, with freezing laughter, "Nelson, the fact that I made you Mrs. Robinson does not give you the privilege of choosing my associates." Next day you may have occasion to say, "Mrs. Robinson, I saw you greet Mrs. Higly yesterday. Now I told you once before that she's an objectionable person, and I want you to understand that no wife of mine shall associate with such a woman!" R.M.M.

SANTA FE EXTENSION.

Common Sense Makes it Clear What the Object Is.

From the San Francisco Chronicle.

Journals quick to dispute the prophecy of the *Chronicle* a year and more ago that the Santa Fe would come to San Francisco as soon as the Valley road had given it a track are now printing the news of Santa Fe advances. In keeping with its old tactics, the Santa Fe is building a line ostensibly to Bakersfield, but really in the direction of Bakersfield, where the Valley road will stop. It is significant that A. T. and S. F. extensions are over southern California were made in the place of a connecting link with the Alhambra system; next connecting links with other small roads, including the one built north from San Diego; then a complete, through service with the main road.

We have always believed it inevitable that when the Valley line should be built the methods of the Santa Fe in reaching for new fields of business would have further illustration, and events are justifying that view. Had there been no preliminary connection between the Valley road scheme and the A. T. and S. F. it was a business certainty that there would have been an eventual one, for no group of railroad men managing an overland line would let a matter of a hundred miles or so of easy construction stand in the way of traffic arrangements that promised it access to the greatest business center of the Pacific slope. Common sense made it clear what the Santa Fe would do, and the latest news shows that it is doing it.

Well Edited and Newsy.

From the *San Francisco Herald*.It is with pleasure we note that the demands of advertisers have forced the *Fresno Republican* to double its size, adding four pages. The *Republican* is a particularly well edited, well ordered and newsy paper, meriting in every respect its handsome patronage.

Had Always Done the Best.

From the *San Joaquin Register*.The *Fresno Republican* has always been one of the best papers, and now it is the largest published in the San Joaquin valley. It is an eight-page paper, seven columns to the page.

Not From Heaven.

Thirty years ago a steamer which was about to make its first passage from one southern city to another was the scene of an evening reception at which a calypso played an important part.

It was the first instrument of the sort which had ever been heard in that region, and as its peculiar, far-reaching notes floated out on the evening air the breasts of a large part of the colored population were filled with alarm. Many were the conjectures as to the source from which the unearthly sound proceeded.

One old darky stood listening in silence for some time in his doorway, not far from the scene of the festivities. At last he spoke in encouraging tones to the frightened group gathered near the little house.

"I tell you what," he said slowly, "I don't believe that an Gabriel a-play in on his tromp, but if it is Gabriel, he's playin' 'Whit Foh do Wagon,' sure! dis child's got ears."—*Youth's Companion*.

The Shadow Fight.

The shadows of Corbett and Fitzsimmons will fight the great Carson act-to over again before a Fresno audience for four nights at Kutner hall, beginning tomorrow (Saturday) night. It will be an interesting, clean exhibit and should be seen by all. The little apparatus, the Veriscope, does the whole thing. Those who have seen the exhibition in other cities say that it is quite wonderful. The show draws well everywhere.

Itching Scalp.

One application of Smith's Dandruff Pomade stops itching scalp. Price, 50 cents per bottle at Smith Bros.' drug store.

Smith's Dandruff Pomade gives tone and vitality to the scalp and forms a natural food for the hair. A few applications will surprise you. Price, 50 cents at all druggists.

Dandruff.

The foregoing excerpts of Smith's Dandruff Pomade remove all the dandruff. Try it. Price, 50 cents.

## THE BIDS FOR SUPPLIES

Supervisors Are Still Considering.

Examination of "Parents With Orphans."

Little is Accomplished By It—Case of Pathos and One of Hauteur.

The matter of the bids for furnishing supplies to the county was again up before the supervisors yesterday, and considerable time was devoted to the consideration of it, with the result that no action was taken, another postponement being taken till today.

In regard to the bids for groceries Supervisor Ward made a motion rescinding the action taken by the board on his motion the day before to award the contracts to the lowest bidders on the respective items of supplies. In place of this Mr. Ward moved that when the bid for furnishing groceries be accepted that the contract be let to the firm making the lowest general bid for all the groceries.

Then the supervisors took up the consideration of the offers before them, and finally passed the matter over until today.

The bids for furnishing clothing to the indigents and inmates of the poor farm, hospital and jail came up. Sam Alexander and Louis Solomon were again on hand, and they had been talking for only about five minutes when another warm debate was precipitated as to the respective merits of their goods.

Supervisor Ward sought to remedy the difficulty involved in arriving at the selection of goods the board ought to purchase. A mistake had been made in advertising for bids in calling for quantities of clothing too expensive for the county's charges. Ward made a motion that the board buy samples of the goods it was to bid, and then receive the bids for supplies, the quality of which should be the same as the samples.

On motion of Manly, however, further action was postponed till this afternoon.

A number of parents of children cared for at the county orphanage appeared before the board and in response to questions as to why they could not rear their offspring or pay for their maintenance.

Mrs. Clement was the first one sworn. She has two children at the orphanage. Her husband deserted her two years ago. She is working for \$15 a month, and said she was unable to contribute to the cost of the little ones. The supervisors considered the case a worthy one, and dismissed the woman.

A young woman was next called. She has two children at the institution, having given birth to them at the county hospital. She is a simple-minded girl, but seemed to feel keenly her position before the board.

Supervisor Ward, ignorant of the facts in the case, began asking questions in a manner that, under the circumstances, might have been of a kinder character. He wanted to know why she did not keep her children at home.

"I am home with mother, and she won't let me out there and have my babies," replied the girl.

"Well, you ought to have thought of that before you got them," replied Ward.

The young woman burst into tears, which were succeeded by a pitiful wail. Clark Johnson conducted the unhappy girl to the adjoining room, and left her there. She continued to cry for some time, but finally recovered her composure and went home.

Mrs. Fay, who has one child at the orphanage, was next examined. She is earning \$25 a month, and the board ordered her either to take the boy or pay \$8 a month for his maintenance.

Clark Johnson conducted the unhappy girl to the adjoining room, and left her there. She continued to cry for some time, but finally recovered her composure and went home.

Mrs. Fay, who has one child at the orphanage, was next examined. She is earning \$25 a month, and the board ordered her either to take the boy or pay \$8 a month for his maintenance.

## THE BIDS FOR SUPPLIES

Supervisors Are Still Considering.

Examination of "Parents With Orphans."

Little is Accomplished By It—Case of Pathos and One of Hauteur.

The matter of the bids for furnishing supplies to the county was again up before the supervisors yesterday, and considerable time was devoted to the consideration of it, with the result that no action was taken, another postponement being taken till today.

In regard to the bids for groceries Supervisor Ward made a motion rescinding the action taken by the board on his motion the day before to award the contracts to the lowest bidders on the respective items of supplies. In place of this Mr. Ward moved that when the bid for furnishing groceries be accepted that the contract be let to the firm making the lowest general bid for all the groceries.

Then the supervisors took up the consideration of the offers before them, and finally passed the matter over until today.

The bids for furnishing clothing to the indigents and inmates of the poor farm, hospital and jail came up. Sam Alexander and Louis Solomon were again on hand, and they had been talking for only about five minutes when another warm debate was precipitated as to the respective merits of their goods.

Supervisor Ward sought to remedy the difficulty involved in arriving at the selection of goods the board ought to purchase. A mistake had been made in advertising for bids in calling for quantities of clothing too expensive for the county's charges. Ward made a motion that the board buy samples of the goods it was to bid, and then receive the bids for supplies, the quality of which should be the same as the samples.

On motion of Manly, however, further action was postponed till this afternoon.

A number of parents of children cared for at the county orphanage appeared before the board and in response to questions as to why they could not rear their offspring or pay for their maintenance.

Mrs. Clement was the first one sworn. She has two children at the orphanage. Her husband deserted her two years ago. She is working for \$15 a month, and said she was unable to contribute to the cost of the little ones. The supervisors considered the case a worthy one, and dismissed the woman.
